

Q. What kind of murals do you do?

A. At the moment we specialize in children's room murals, and children's play area themes. We do however also do stylized themes based on nature and design for Adults. We do not offer trompe l'oeil or photo realistic murals but if you require such a service, we can refer you to the right people for this. Please email us your requirements by filling out our Mural Quote Request form or our contact us form.
